

Confirmation of Validity – Expiry Date

To whom it may concerns

Dear customer,

The mentioned lifetime in our user manual was suggested conditions of the authorities.

We are permanently testing our products and we also follow up feedback from market and research by institutes to increase our knowledge of our laser safety products.

As a result of this knowledge, we can guarantee a much longer lifetime of our laser safety products than we stated in our user instruction.

Our laser safety products will protect your eyes if you store and wear the product under normal conditions (no direct sun light or laser impact, no wet or dirty environment) and if you can't see any visible defect.

Please check your laser safety product before every usage for visual defects.

If you note any defect or if you have any doubt in cause of any impact, please feel free to send this product for a service check to PROTECT-Laserschutz GmbH. We will give you professional feedback, if your laser safety product is still in good condition or if there is any need to repair or to replace it.

Nuremberg, 23.11.2023

Rüdiger Fröbel
